

TANTALUS FLATS

Ride from Boulder Mountain into Capitol Reef National Park.

LOCATION

This trail begins at the Rosebud Trailhead just south of Pleasant Creek Campground on Scenic Byway 12.

TRAIL TYPE

This trail is for biking only. There are however other hiking and ATV trails that cross with this one.

DISTANCE

This trail length can vary depending of what you decide to do. Details are on the next page under the heading "Do It At Your Own Pace."

DIFFICULTY

This trail is moderate. At the trailhead the elevation is 8,600 ft and the lowest point is 6,500 ft. so there is slight elevation variation throughout.

TRAIL DESCRIPTION

The trial is mostly maintained road and trails.

EQUIPMENT

This is the information for the mountain biking trail in that area.

ENVIRONMENT

This trail may start in the mountains but it can be extremely hot in the summer time as you descend in elevation.

SAFETY

Be sure that you have enough water to complete the whole trail. Also, be sure to check the weather.

TAKE IN THE VIEWS.

This trail is a spectacular ride through Capitol Reef country. The splendor of the Henry Mountains combined with the beauty of the red desert rock monoliths create a unique and beautiful view for all who ride this trail.

GET A CLOSER LOOK.

As you ride along the changing landscape of the area, you will come across beautiful mountain vegetation to desert rock. The trail blends from mountain to desert so flawlessly you will hardly notice. As stop and take a closer look you will be refreshed because of nature's wonders.

DO IT AT YOUR OWN PAGE.

Just above Lower Bowns Reservoir follow the road on a strong northeast direction toward Tantalus Flats where the road can be followed east toward Capitol Reef National Park. Riders can continue into the park and follow the road north to connect with the scenic drive or have a support vehicle pick them up inside the park.

Trail tip: The closest communities for lodging and other services are Grover, Teasdale, Torrey.
